### MARKET REVIEW

On June 1 the Department declared a deficit of 410,000 tons in the sugar quota for Puerto Rico and 5,000 tons in the Virgin Islands quota. The Republic of the Philippines were allocated 195,963 tons and the balance of 219,037 tons was prorated to Western Hemisphere countries on the basis of quotas in effect. Sugar within these deficit prorations will not be authorized for importation prior to July 1, 1966.

The action of June 1 will permit countries to plan their exportations for the second half of the year and provide adequate time for countries that may not be able to supply the full quantity of their quotas, including deficits, to notify the Secretary before August 1.

The average spot price for domestic raw sugar for May was 6.90 cents per pound and for January-May was 6.89 cents. For June 1-10 the average was also 6.89 cents per pound.

The wholesale list prices for 100 pound bags of refined sugar as of June 10 continue to be the same as at the beginning of April. For cane sugar: 10.20 cents per pound in the Northeast, 9.80 cents in the Southeast and Gulf, 9.55 cents in the Chicago-West and 9.40 cents on the Pacific Coast. Beet sugar in the Eastern and Chicago-West territory is listed at 9.35 cents per pound and on the Pacific Coast at 9.40 cents.

Both cane and beet sugar are offered at 0.10 cent below the quoted price in the direct shipping area of the Chicago-West territory with an additional allowance of 0.10 cent for direct shipments.

The spot price for world raw sugar averaged 2.09 cents per pound during May and 2.21 cents for January-May 1966. On June 6 the spot price reached a new low for the year of 1.75 cents per pound.

Deliveries of sugar for U. S. consumption during January-May totaled 3,837,000 tons or 100,000 tons more than for the same period last year. Cane sugar-refiners deliveries exceeded those of last year by 147,000 tons while beet sugar deliveries are 33,000 less than during January-May 1965.

Including constructive deliveries of 37,000 tons physical deliveries would total 3,874,000 tons and are about in line with the seasonably adjusted rate of expected consumption during this period.

At the end of March it appeared that users' inventories might have increased about 100,000 tons but April-May deliveries seem to have worked off this build-up. June deliveries are expected to be more in line with the higher rate of consumption typical for that month.

Puerto Rican sugar production through May 29, 1966 was approximately 783,000 tons raw value. Sugar production after that date during the three preceding crop years averaged 73,000 tons but ranged from 52,000 to 116,000 tons.

Hawaiian sugar production through May 28, 1966 totaled 495,000 tons, raw value, as compared to 428,000 tons in 1965 to the same date and 484,000 tons in 1964. Calendar year production in 1965 was 1,218,000 tons and 1,179,000 tons in 1964.

Brazil sold 530,000 tons of world market raw sugar to merchants during the period June 3 to 6. Delivery is for the period July 1, 1966 to June 30, 1967. Terms of sale are understood to be based on the No. 8 futures quotation during the month of shipment.

ADMINISTRATIVE ACTIONS RELATING TO 1966 SUGAR SUPPLIES

## Reallocation of Sugar Quota Deficits:

The U. S. Department of Agriculture on June 1, 1966 declared a deficit of 410,000 short tons, raw value, in the sugar quota for Puerto Rico and 5,000 tons in that for the Virgin Islands. Of the total deficits of 415,000 tons, 195,963 tons were allocated to the Republic of the Philippines and the balance of 219,037 tons was prorated to Western Hemisphere countries named in Section 202(c)(3)(A) of the Sugar Act on the basis of quotas now in effect.

Most Western Hemisphere countries have assured the Secretary that they will use an amount equal to the total net receipts f.a.s. port of shipment, derived from deficit proration for the purchase and importation of U. S. agricultural commodities to be consumed within the country. The deficits allocated to other countries of the Western Hemisphere are contingent upon their having provided similar assurance to the Secretary prior to August 1, 1966.

The Action was taken at this time to enable countries to plan their exportations for the late months of the year and also to provide adequate time to those countries which may not be able to supply the full quantity of their quotas (including reallocated deficits) to so notify the Secretary before August 1. The Sugar Act provides that quotas for future years shall be reduced if a country fails to supply its current year's quota unless the country notifies the Secretary of such failure and the Secretary finds that the failure was due to crop disaster or other force majeure and the country had met certain other conditions.

None of the sugar within deficit proration may be authorized for importation prior to July 1, 1966.

The deficit determinations and proration and revised quotas are shown in the following table:

Production area	Basic quotas	Temporary quotas and prorations pursuant to Sec. 202(d) 1/	Deficits and deficit prorations	Total quotas and prorations
Short tons, raw value				
Domestic beet area	3,025,000	-	-	3,025,000

1/ Includes the proration of quotas withheld from Cuba and Southern Rhodesia and the proration of the quota for Honduras to Central American Common Market countries.

\* Direct-consumption portion: Hawaii - 34,200 tons; Puerto Rico - 150,000 tons; Republic of the Philippines - 59,920 tons; Panama - 3,817 tons; and Ireland 5,351 tons.

ADMINISTRATIVE ACTIONSDate announcedNature of action

May 12,  
1966

Announced public hearings on fair prices for the 1966 Florida and Louisiana sugarcane crops and on whether the wage determinations applicable to fieldworkers -- which became effective Dec. 1, 1965 in Florida, and Nov. 1, 1965 in Louisiana -- should be continued or amended.

Places, dates, and local time of hearings are:

At Belle Glade, Fla., on June 17, 1966, in the Holiday Inn, beginning at 9:30 a.m.

At Houma, La., on June 22, 1966, in the Municipal Auditorium, 880 Verret Street, beginning at 9:30 a.m.

USDA requests that all interested persons appear at the appropriate hearings to present views and pertinent data. (See May 17, 1966 Federal Register).

May 26,  
1966

Announced conditions of payment and certain other requirements that must be met by producers to qualify for Sugar Act payments for the 1966-67 and subsequent crops of Puerto Rican sugarcane. (See June 2, 1966 Federal Register).

May 27,  
1966

Local producing areas in 12 Louisiana parishes and all of Florida designated as eligible for abandonment and crop deficiency payments for the 1965-crop sugarcane. (See June 2, 1966 Federal Register).

Date announcedNature of action

May 27,  
1966

Announced a public hearing on proportionate shares for the 1967 sugarcane crop in the Mainland Cane Sugar Area (Louisiana and Florida). The hearing will be held on June 14, 1966, beginning at 10:00 a.m., at the Eden Roc Hotel, Miami Beach, Florida. The views and recommendations of interested persons are desired on all phases of the proportionate share program. (See June 2, 1966 Federal Register).

STATISTICAL SERIES IN THIS ISSUEHIGHLIGHTS

1. May 1966 sugar deliveries for continental U. S. consumption 831,000 short tons, raw value (preliminary), up about 92,000 tons from April 1966 and down 15,000 tons from May 1965. January-May 1966 deliveries 3,837,000 short tons, raw value, up 100,000 tons from January-May 1965. Final data for April 1966 deliveries 739,000 short tons, raw value - previously published preliminary as 752,000 tons.

2. Primary distributors' stocks May 28, 1966 were 2,313,341 short tons, raw value (preliminary), down 107,000 tons from a year ago, and down 200,000 tons from April 30, 1966. During April refiners' stocks decreased 41,000 tons, beet processors' stocks decreased 124,000 tons, mainland cane processors' stocks decreased by 31,000 tons and importers of direct consumption sugar stocks decreased about 4,000 tons.

3. Charges to quotas January 1 to May 31, 1966 were 4,497,533 short tons, raw value, leaving a balance of 5,502,467 tons to be supplied within the 10,000,000 ton total.

4. Regionally, January-April deliveries, 1966 as compared to 1965 were up in 4 of the 5 regions: Increases -- New England 8.3 percent, South 7.6 percent, Middle Atlantic 6.3 percent, West 2.3 percent. Decrease -- North Central 0.4 percent.

5. First quarter 1966 sugar deliveries were larger to 6 of the seven industrial user groups than for the same 1965 quarter, and also larger to two of the four non-industrial user groups. To industrial buyers the national increase was 9.5 percent and to non-industrial buyers 1.2 percent. Corn refiners' total domestic shipments of corn sirup and dextrose during the first quarter of 1966 were up about 8 percent over the first quarter 1965.

Grand total <u>2/</u> (domestic & export)	5,887	5,283	2,280	2,296	8,167	7,579
Bulk blends <u>4/</u>	346	753	-	-	346	753

1/ Sirup mixers outside of the corn refining industry, except cane sugar refiners and beet sugar processors; the latter two are included with "Miscellaneous food industries."

2/ Due to rounding, totals may not be exact sums of individual items.

3/ According to the Census of Manufactures 1958, shipments of corn sirup solids were 63.7 percent of total shipments of miscellaneous refinery products. Since corn sirup solids contain up to 3.5 percent moisture, corn sirup solids dry basis, are estimated as 61.5 percent of shipments of miscellaneous refinery products as reported. For earlier treatment of this item see Sugar Reports 93, page 6.

4/ Distributed among the various types of buyers listed above.

1/ Spot prices are for bulk sugar under Contract No. 7, the terms of which are duty paid or duty free, full duty rate .625 cent per pound.

2/ Spot prices are those under No. 8 Contract which is for bagged, f.o.b. and stowed at Greater Caribbean ports (including Brazil).

3/ The No. 7 "Domestic Bulk" Contract has been adjusted by deducting duty (.625¢), computed freight from the Greater Caribbean ports (including Brazil), insurance and unloading charges and adding the bag allowance (currently .055¢) before calculating the differential from No. 8 "World" Contract spot prices.

4/ These are basis prices in 100-pound paper bags, NOT delivered prices. To obtain delivered prices add "Freight Prepays" and deduct discounts and allowances. For illustrations see Sugar Reports 81, January 1959, pages 5 to 9.
